

WELLNESS

Dentist Well-Being Program Directory

State Well-Being Program Directory

For many years dentists have been coming together in an organized way to help each other with personal problems. It started with recovering dentists, and others with a sympathetic understanding of the disease of alcoholism and drug addiction, working to put a system in place to reach out to those who were still suffering.

Peer assistance is just what it sounds like, one colleague being available to assist another with a particular need. Over the years, helping hands have also been extended to dental professionals with depression or other mental health disorders; those whose edges are frayed from chronic stress or burnout.

This State Well-Being Program Directory provides a list of state contacts to help connect you to support during your time of need. Additionally, a list is also included of the 2022 Wellness Ambassadors who have offered to be a resource.

DISCLAIMER

This publication is purely informational only and does not constitute professional, medical or legal advice; readers are advised to consult with their own professional advisors to obtain any such advice. A listing of an individual, entity or organization (whether by name, address, phone number, website or otherwise) in this publication does not constitute a recommendation of or by the American Dental Association (ADA). To the extent that this publication includes links to any website, ADA intends no endorsement of their content, nor of the individuals, entities, or organizations that provide their content. The ADA does not endorse any of the information, recommendations, products or services of non-ADA resources that may be identified herein.
